

Please do not approve the new broadcast service known as Low Power FM (LPFM). The radio station that I listen to K-LOVE (broadcasting from California) uses the current FM translator service in order to serve me and my local community in North Carolina (106.7 FM in the Raleigh/Durham area). If K-LOVE were to be displaced by an LPFM broadcaster, my community and I would lose a commercial-free listener supported and God-centered radio station that has been service the public for over twenty (20) years -- and that now serves millions of listeners all over the United States by FM translator services. K-LOVE provides targeted information specifically for my region regarding events and opportunity that would not be available elsewhere; thus, K-LOVE clearly operates in the public interest. One way that K-LOVE does this is through a unique Music Advisory Panel (of which I, myself, am a member) that allows listeners to help select the music programming on the station. As a financial supporter, myself, of K-LOVE, I truly believe that K-LOVE is a small, but truly critical, 'national treasure' that deserves support to continue their mission to serve God and country (and all the world) through the message of the Holy Bible and the Gospel of Jesus Christ.

Thank you for your consideration.
